

# While You Serve Others, Let ACS Serve You

With innovative, industry-leading, cost-effective employee health benefit plans

Working in the hospitality industry, one of your main goals is to provide customers with an enjoyable experience. This is a much larger job than most people perceive. You do a lot to make others happy. So, sit back, relax, and let ACS Benefit Services produce top health benefits on your behalf.

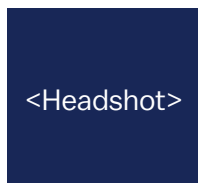

In fact, ACS helped one client in the restaurant industry **avoid a 36% increase in their health plan**. This increase would have brought their **annual costs from \$482,583.84 to over \$650,000**.

Not only did this client experience sizable savings up front, but they are also expected to receive **at least \$25,000** in rebates in 2023. This means their spend will only increase by about 3-4% this year, unlike the **36% they were expecting with an industry competitor**. Ultimately saving them money while improving their network and benefits.

With a proven track record of providing employer groups in hospitality with innovation, cost savings, superior services, and improved outcomes- we're here to help you reap the benefits of self-funding.
